

Coronavirus crisis in India – level 1

A big coronavirus **crisis** is happening in India. More than 400,000 people have corona virus every day. Hospitals are full. Some people do not get to hospital. They die at home.

Families burn dead bodies outside. People can see the **flames** at night. Hospitals do not have enough **oxygen** and medicine.

The US and some European countries are helping India. They are sending **material** for **vaccines**, **ventilators**, and medicine. They hope that it will help stop the crisis.

Some rich people do not want to stay in India. They are taking private planes. They are leaving the country. They fly to Europe and the Middle East.

People are very scared of the coronavirus in India now.
